Work Experience

Project-Based UI Designer

Apr 2022 – Aug 2024

Sonora Quest Laboratories, Phoenix, AZ

- Redesigned patient kiosk interface in 2 months by introducing a simplified user flow and cleaner UI.
- Conducted usability testing with a focus group of 11 people in English and Spanish languages to gather user feedback and refine designs.
- Collaborated with teams of 10+ end users, stakeholders, project management, marketing and engineers on projects to ensure design vision and business needs were met.
- Redesigned the user flow for our test-in-question process to integrate with our online patient portal.

Executive Assistant

Jul 2018 – Aug 2024

Sonora Quest Laboratories, Phoenix, AZ

- Delivered executive-level support for 2 senior executives which included managing calendars, coordinating travel arrangements, planning events and managing budgets.
- Occasionally provided support to the 9 other senior executives on the senior leadership team as needed.
- Managed information flow via telephone, email and collaborative software while maintaining confidentiality.
- Designed compelling presentations for events with 100+ attendees while adhering to company identity standards.
- Designed the graphics for our company employee survey campaign using Adobe Illustrator, Photoshop & InDesign for 2 years in a row.

Administrative Assistant

Nov 2012 – Nov 2017

State of Maryland, Insurance Administration, Baltimore, MD

- Provided administrative support to the Director, including managing hearing processes and handling correspondence, dockets, and complaint files.
- Coordinated with attorneys, complainants, and court systems, and ensured the smooth execution of hearings.
- Trained 30+ employees in Google Applications, Microsoft Applications, and Adobe Acrobat, and served as the main contact for consumers and insurance companies.
